<i>Survey Question</i>	<i>Page</i>
Total Number Surveyed.....	1
In general, would you say people in your neighborhood are very active?	2
Overall, how would you rate your neighborhood as a place to engage in physical activity? Would you say it is very pleasant? ...	3
In general, would you say the motorized traffic in your neighborhood is light?.....	4
Does your neighborhood have any sidewalks?.....	5
For walking or running in your neighborhood, would you say your sidewalks are very well maintained?.....	6
For any type of physical activity at night, would you describe the street lighting in your neighborhood as very good or good?	7
How safe from crime do you consider your neighborhood to be? Extremely safe?.....	8
Generally speaking, would you say most people in your neighborhood can be trusted?	9
What is the single biggest obstacle to participating in physical activity in your neighborhood? Top 3 responses.....	10
What is the single biggest obstacle to participating in physical activity in your neighborhood? Traffic.....	11
What is the single biggest obstacle to participating in physical activity in your neighborhood? Lack of sidewalks.....	12
What is the single biggest obstacle to participating in physical activity in your neighborhood? Crime.....	13
Does your neighborhood have public recreation facilities such as bike paths, walking trails, public swimming pools, parks, or recreation centers, etc?.....	14
Are they within walking distances of your home?.....	15
In general, how would you rate the condition of these public recreation facilities? Excellent.....	16
Thinking about how public money is spent on recreation facilities, would you say your neighborhood gets its fair share?	17
Does your community have walking trails?.....	18
Does your community have public swimming pools?.....	19
Does your community have public recreation centers?	20
Does your community have bicycle paths or trails?	21
Does your community have parks, playgrounds or sports fields?	22
Are schools in your community open for public recreation activities?	23
Are shopping malls in your community open for physical activity or walking programs?.....	24
Do places of worship in your community have facilities for physical activities?	25

Does your community have waterways such as creeks, rivers and lakes for water-related physical activities such as canoeing, kayaking, swimming, or skiing?	26
Do you have a membership in ANY private or membership only recreation facilities in or outside your community?	27
In your community, do you have easy access to public recreation facilities?	28
How safe are the public recreation facilities in your community? Safe or very safe	29
During the last 7 days, did you engage in any type of physical activity - vigorous, moderate or minimal for at least 10 minutes?	30
During the last seven days, on how many days did you do vigorous physical activity for at least ten minutes?.....	31
On those days you did vigorous activity, on average how much time did you spend?	32
During the last seven days, on how many days did you do moderate physical activity for at least ten minutes?.....	33
On those days you did moderate physical activity, on an average how much time did you spend?	34
During the last seven days, on how many days did you do minimal physical activity for at least ten minutes?	35
On those days you did minimal activity, on average how much time did you spend?	36
During the last seven days, on how many days did you walk as a means of transportation for at least ten minutes at a time? At least one day.	37
During the last seven days, on how many days did you walk as a means of transportation for at least ten minutes at a time? At least three days	38
On those days you walked as a means of transportation for at least ten minutes, on average how much time did you spend walking? Over 20 minutes.	39
On those days you walked as a means of transportation for at least ten minutes, on average how much time did you spend walking? Over 60 minutes.	40
During the past three months my family or members of my household or friends - exercised with me.....	41
During the past three months my family or members of my household or friends - offered to do physical activities with me.	42
During the past three months my family or members of my household or friends - gave me reminders to be physically active. ...	43
During the past three months my family or members of my household or friends - gave me encouragement to stick with my activity Program.....	44
During the past three months my family or members of my household or friends - complained about the time I spent doing physical activity.....	45

SURVEY METHODOLOGY

Priority Metrics Group (Spartanburg, SC) conducted a telephone survey of Spartanburg County residents 18 years of age or older. Over 2,400 surveys were completed – approximately 200 each month from January – December 2007. Surveys were conducted every month so that seasonal changes wouldn't affect the results. Interviews were conducted during afternoon, evening, and weekend hours to reach individuals who might be working or otherwise unavailable during normal business hours. It took approximately 30 minutes to complete each survey.

The sample size was very large. We spoke with over 2,400 citizens in Spartanburg County. For a comparison, many political polls typically speak with less than 1,200 people in the whole country. We spoke with twice as many people in one county. Because our sample was so large, you can have a great deal of confidence in the results. But even a large survey sample is just a sample. All surveys have a “margin of error.” By increasing the number of people we surveyed, we decreased the margin of error to a level that is statistically very small.

For those of you who like the detailed math, here are the specific parameters for each data type in the survey. The sample size (n=2404) results in a confidence interval of ± 0.04 ($\alpha=0.05$, $\sigma=1.0$) around an average response and $\pm 1.8\%$ ($\alpha=0.05$, est. proportion=25%/75%) around a percentage response. This means that if the same study were repeated 20 times following the same data collection methodology and with the same survey population, a calculated average would be within ± 0.04 of the true mean and a percentage would be within ± 1.8 percentage points of the true mean at least 19 of the 20 times.

HOW TO USE THIS DATA BOOK

This data book is made available to ensure easy access to the Mary Black Foundation’s Active Living Survey results. Many people are interested in more information than can be provided in the summary of findings previously published and available online at www.maryblackfoundation.org. This data book gives you the freedom to explore the responses to specific questions in more detail and examine the data by geographic areas.

This data book contains “raw data.” The actual number of respondents to each answer by age, race, income, and gender is provided. These categories are further broken down to provide a geographic distribution by zip code “cluster.” There is data for ten “clusters” or geographic areas within Spartanburg County.

The first page of data provides the total number of survey respondents in each category. This is the “n” or denominator in any analysis you chose to conduct. Subsequent pages are devoted to each question in the Active Living Survey. For questions that allow multiple answers, the top answers are provided. For other questions, the desired answer is provided. For example, for the question “In general, would you say that the people in your neighborhood are . . .,” the number of respondents who said, “very active” is provided. Finally, for open-ended questions, the top three answers are given.

There is an important difference between this book of “raw data” and the summary data published by the Mary Black Foundation. In addition to providing the listing of total respondents by question and category, “raw data” is unadjusted. Often times, if a survey sample does not match the actual distribution of residents as found in Census data, the sample is “adjusted” to match real population distributions. This ensures the most accurate data possible. The data analysis and summary information provided by the Mary Black Foundation (cited in its published reports and on its website) makes this type of adjustment and corrects for any over or under sampling in each of the demographic categories listed.

The data in this book is “unadjusted,” meaning that this data has not been corrected for any over or under sampling in the demographic categories. This is an important limitation to any data analysis you conduct. Whenever you share your analysis based on this data, this key limitation should be clearly stated.

For questions about this data or the methods used for collection, please contact the Mary Black Foundation at 349 East Main Street, Spartanburg, SC 29302 or 864-573-9500.
